

PR-1 Planning Form - Stadium App Wireframe

Planning the functionality of a smartphone app

Instructions

Refer to **Figure PR-1** for the content requirements of this project. You will insert the image of your stadium map (previously saved in **SS-6**) in your presentation. Use the blank slides on this form to help organize and sketch your ideas for this presentation.

As you plan each slide, consider the following:

- The title of each slide
- The position and alignment of the title
- The font and size of the text
- The background color of the slides
- The position of the map
- The position of the home button
- The name and direction of the entrance effect for the animation of the shape
- The name and direction of the exit effect for the animation of the shape

SLIDE 1

A large, empty rectangular box with a black border, intended for sketching the content of Slide 1.

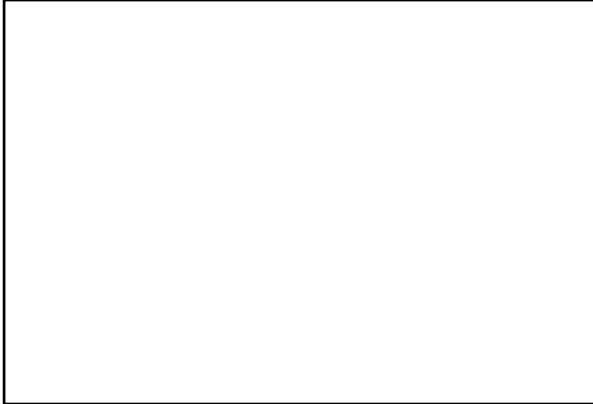

SLIDE 2

A large, empty rectangular box with a black border, intended for sketching the content of Slide 2.
